## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-4, 7-9, 11-15, 19-23 and 27-30 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach, disclose, or suggest, either alone or in combination a control system for controlling the operation of a engine-driven electrical generator which generates AC power and AC voltage, wherein the generator control adjusts the magnitude and the engine speed of the engine to vary the frequency of the AC voltage generated by the generator to match the magnitude and frequency of the AC voltage of the utility source. Therefore, the limitations contained on claims 1-4, 7-9, 11-15, 19-23 and 27-30 are considered to be in condition of allowance. This invention provides an electrical generator incorporating a control system which controls operation of the electrical generator in a stand by mode or in a parallel mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
